

LOUISIANA STATE BOARD OF DENTISTRY

THE BULLETIN

VOL. 24 WINTER 2005

PUBLISHED TO PROMOTE VOLUNTARY COMPLIANCE WITH THE DENTAL PRACTICE ACT

MESSAGE FROM THE PRESIDENT

Goodbye to 2005. May you never come again. My thoughts and prayers go with all our citizens affected by Hurricanes Katrina and Rita and especially to our dental community. We have all been affected, some were okay, some devastated, but we're surviving and with some hard work and a little luck we'll be thriving. As I write this I already see progress. Before I wrote this I saw Herculean effort.

I saw our board staff keep communications going, assisting our licensees seeking licensure elsewhere, doing our duty, despite the worst Mother Nature can deliver.

I saw the LDA and ADA assisting dentists in these troubled times.

I saw demographics change. Our state has changed as our resolve has grown.

The board of dentistry is resolved and committed to maintaining the highest of the

standards of our professions. Though we have been slowed, we shall continue for the best for our citizens and the professions.

The board of dentistry is preparing to join with the national licensing community in administering clinical licensing examinations so as to provide for freedom of movement between states yet continue to maintain high standards for licensure.

As you can see in this Bulletin, continuing education requirements have been relaxed. This is a direct result of the catastrophes we have suffered. However, it is our resolve to get back on track as

soon as we can. As the professions evolve and improve, so shall we.

As one who also lost my home, my prayers are with each of you who were hurt in any way with our hurricanes. Our board will assist you in any way possible with the respect you deserve.

Respectfully,
Vance L. Wascom, D.D.S.
President, Louisiana State Board
of Dentistry

ENTERAL CONSCIOUS SEDATION PERMITS

Due to the problems caused by Hurricanes Katrina and Rita, the deadline for obtaining enteral conscious sedation permits has been extended until June 30, 2006 in order for those licensees to have sufficient time to obtain the necessary continuing education before being granted the permit to administer enteral conscious sedation. Those dentists administering ECS at this time may continue to do so until June 30, 2006, thereafter which they must have the permit to do so.

From the Desk of THE EXECUTIVE DIRECTOR:

The board staff faced difficult challenges conducting business during the aftermath of Hurricanes Katrina and Rita. During the time the board office was inaccessible, the board conducted business via internet and phone from Florida as of September 5, 2005. The board office re-opened, with partial staff, for shorter hours on September 26, 2005. The board intends to meet the needs of dental health care professionals and their patients, but can only so do within the limits imposed by circumstances. At the time this went to the printer, the board office building was surrounded by armed military personnel, water trucks, news media and medical stations. A curfew was in effect, and it was strictly enforced. Although food was available, the choices (hamburgers or beans and rice) were limited. In spite of the difficulties, the board office was open and is operating.

The Louisiana continuing education requirements found in Rules 1601-1619 are to be relaxed due to the disruptions caused by Katrina and Rita. At the time this was headed to the printer, the board and the LDA had agreed upon the approach set forth elsewhere in this publication.

The deadline for obtaining enteral sedation permits has been postponed as set forth elsewhere in this publication.

Three board members' terms expire on December 31, 2005. Nominations for those seats, occupied by Charles T. McCabe, D.M.D., Charles Wise, D.D.S., and Christine Guillaume, R.D.H., will be submitted to the Governor as soon as circumstances permit. Due to the dispersal of dentists and hygienists from the areas represented by them, the nomination process is being delayed upon instructions from the Governor's office.

Finally, the board has decided to join with other states in an effort to develop and eventually administer a nationally recognized clinical licensure examination for Louisiana dental professionals, thus allowing dental healthcare professionals to move more freely across state borders. The board believes that this is a positive development for those to be licensed by Louisiana, and invites all interested parties to express their views on the subject.

With kindest regards, I am

Yours truly,

C. Barry Ogden
Executive Director

IMPORTANT

CONTINUING EDUCATION REQUIREMENT

For all dentists and dental hygienists renewing their licenses this year, there will be no continuing education audits. This is necessitated by the fact that the New Orleans Dental Conference has been cancelled for the past two years and all the other problems associated with Hurricanes Katrina and Rita.

All dentists and hygienists renewing their licenses at the end of calendar year 2006 must complete one-half of their requirements. Dentists must obtain twenty hours of continuing education. Ten of those twenty hours must be clinical, however, five of the ten clinical hours may be obtained via internet and correspondence courses.

Hygienists must obtain twelve hours of continuing education. Six of those twelve hours must be clinical in nature; however, three of the six clinical hours may be obtained via internet and correspondence courses.

Beginning in calendar year 2007, all continuing education requirements must be fully met.

FREQUENTLY ASKED QUESTIONS

- 1) Do I need to apply for a new anesthesia office permit if I move to a new office?

YES. All locations in which anesthesia/sedation is performed must have an office permit for that level of anesthesia which is being used. If you move to a new office, your permit from the old office does not transfer. Please contact the Board office for an anesthesia application.

- 2) How do I renew my anesthesia permit(s)?

At this time, your anesthesia permits renew automatically upon your license renewal. There is no separate fee.

- 3) Do I need to post my original license(s) in my office?

YES. All Louisiana licensees holding either a dental or dental hygiene license shall display their license in full and open view for all patients to observe along with all current renewal permits of said license.

All certificates or permits authorizing the administration of anesthesia, analgesia or sedation shall also be displayed in full and open view in close proximity to those licenses and renewal certificates required to be kept in open and full view for the public to observe.

When licensees provide dental services in more than one facility, a copy of said licenses and/or certificates shall suffice in place of the original and said copy shall be displayed in full and open view for all patients to see.

If you have lost or misplaced your original dental/dental hygiene license, please contact the Board for an affidavit of lost license. There is \$50.00 fee for duplicate original licenses. There is also a \$50.00 fee for duplicate renewal certificates or permits.

- 4) Why is the renewal fee so much?

The renewal fee is for two years.

- 5) How long is my renewal license good for?

All renewals are biennial (2 years).

- 6) What is the deadline for my renewal application?

This year the deadline is December 31, 2005.

- 7) Can I place my license on semi-retired or inactive status?

NO. The Board only has an active status. If you voluntarily surrender your license due to retirement, your license no longer exists. However, at this time the board and the LDA are working on legislation to create a volunteer or retired status to allow retired licensees to provide pro bono dental care.

- 8) Does the Louisiana State Board of Dentistry regulate or certify dental assistants?

NO. The Board does not regulate dental assistants. We do a certificate confirmation for the Expanded Duty Dental Assistants only after he or she has submitted proof of completion of the following: completed application, approved EDDA course, approved radiology course, current CPR card, and the \$25.00 application fee.

LOCAL ANESTHESIA PERMIT INFORMATION

The dental hygiene Local Anesthesia permit is not automatically issued upon completion of the local anesthesia course or completion of the dental hygiene program. Each dental hygienist is sent an application with their original license. The application must be completed and returned to the board office with a copy of their certificate showing satisfactory completion of the local anesthesia course. The LSU School of Dentistry and the University of Louisiana at Monroe send the

Board a list of persons completing the requirements through their respective dental hygiene programs. Those persons graduating from the dental hygiene program only need to complete the application to obtain a local anesthesia permit. If you need an application, please contact the board office. If you do not have a permit, you are **not** authorized to administer local anesthesia.
